November 11 SUNDAY	12:30 pm – 4:30 pm	Introduction to Forging	\$25 Materials fee	Maria Levin, Instructor
-------------------------------	---------------------------	--------------------------------	---------------------------	------------------------------------

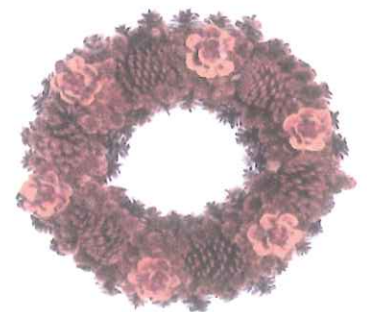

Using hammers and steel blocks, metal stamps and shaping tools, we will texture, pattern and bend simple copper discs into one of a kind designs. In this 4 hour workshop, instructor Maria Levin of Sawtooth Jewelry Studio in Troy, will demonstrate a variety of simple metalworking techniques for participants to try, and step- by-step projects for those who prefer a more measured approach. By getting to know the tools and materials through observation and practice, we can make a variety of projects such as earrings, pendants, gift tags or Christmas ornaments, to name a few. This class is a fun and relaxed introduction to basic metalworking, where experimentation and taking chances is always encouraged and often rewarded!

Class size is limited to 8 students, adults and teens.
